Introduction

Founded in 1987, the Asian Youth Orchestra (AYO) is a highly competitive six-week summer music program for musicians from 17 to 27 years old. Each year, auditions are held throughout the Asian region for the 100 or so musicians eager for a place in AYO. These talented musicians, most on track to become professionals in the world's leading orchestras, come together for a three-week intensive Rehearsal Camp, coached by an exceptional artist-faculty of principal players from internationally renowned orchestras, and three-week concert tour, performing with major international solo artists. 2024 marks AYO's 34th season. AYO will continue to expand its annual program to create a "AYO Summer Workshop and Masterclass Series" which is designed especially for the local musicians from 15 to 35 years old.
